Prologue:

The Medical Reserve Corps (MRC) Training Plan is a suggested guide for training MRC Volunteers at the local level. It presents a “menu” of options to guide MRC Unit leaders and volunteers with trainings that align with the Competencies for Disaster Medicine and Public Health (DMPH). The DMPH Competencies represent the baseline level of knowledge and skills that all MRC volunteers should have, regardless of their roles within the MRC unit. Because the DMPH competencies only establish a minimum standard, units may choose to expand on the competencies in order to train volunteers at a more advanced level.

MRC units can choose trainings from the training matrix, use other trainings not listed in the matrix, or create their own unit-specific trainings based on the DMPH competencies.

For an in-depth look and detailed information about the revised MRC Volunteer Core Competencies, view the self-paced eLearning module “MRC Volunteer Core Competencies: An Introduction and Overview”. This course is accessible via MRC-TRAIN (www.mrc.train.org) Course ID1057558 or via NACCHO University (http://naccho.org/university).

How to Use the MRC Volunteer Training Matrix:

The MRC Core Competencies Training Plan is organized into the following four categories:

Learning Paths are groups of competencies related to certain topics that align with volunteer motivations. The learning paths may help you conceptualize how the Competencies for Disaster Medicine and Public Health relate to volunteer motivations. One training may cover one or all of the competencies within a learning path. The four learning paths are Volunteer Preparedness, Volunteer Response, Volunteer Leadership, and Volunteer Support for Community Resiliency.

Disaster Medicine and Public Health (DMPH) Competencies serve as the foundational competency set for MRC volunteers and represent a baseline level of knowledge and skills that all MRC volunteers should have, regardless of their role within the MRC unit. They are widely understood to be the knowledge needed for a health care professional and/or first responder to perform a task in a safe and consistent manner.

MRC Performance Qualifications break down the DMPH Competencies into MRC specific measurable actions (knowledge, skills, and attitudes) that a volunteer should be able to perform in order to be considered competent in an area.

Suggested Trainings/Tools are recommended resources and trainings, most of which are available on-line and free of cost, that will enable volunteers to meet the competencies. The training list is not comprehensive, rather it is a starting point for unit leaders to consider. The trainings are accessible through MRC-TRAIN.
Learning Path: Volunteer Preparedness

| 2.0 Demonstrate knowledge of one’s expected role(s) in organizational and community response plans activated during a disaster or public health emergency | Follow procedures to successfully activate, report and demobilize. | MRC Factors for Success: Alerting, Activating, and Demobilizing Volunteers (1052374)  
EM 106: Emergency Preparedness for Health Care at Work and at Home (1023206)  
IS-7 A Citizen's Guide to Disaster Assistance (1011650) |
| | Follow policies and procedures related to professional and ethical representation of the MRC. |  
IS-100.B: Introduction to Incident Command System (1024627)  
EM 108: Emergency Preparedness for Health Care with NIMS (1016793) |
| | Describe the chain of command (e.g. NIMS, ICS, EMS) during MRC activities. |
| 4.0 Communicate effectively with others in a disaster or public health emergency | Describe the member’s communication responsibilities and procedures. | Risk Communication Principles and Challenges: Road to Resilience Series (1032225)  
Public Health Information & Data Tutorial (1005318) |
| 6.0 Demonstrate knowledge of surge capacity assets consistent with one’s role in organizational, agency, and/or community response plans | Describe how MRC serves the community. | Surge Capacity for Disasters: The Potential Role of the Community and Public Health Nurse (1008833)  
Logistics: Strike Teams, Asset Management and Supply Distribution (1046710)  
IS-26 Guide to Points of Distribution (1017010)  
Mass Dispensing Overview: An SNS Perspective (1054681) |
| 7.0 Demonstrate knowledge of principles and practices for the clinical management of all ages and populations affected by disasters and public health emergencies, in accordance with professional scope of practice | Identify the impact of an event on the behavioral health of the MRC member and their family, team, and community. | Psychological First Aid (PFA) Online (1022214)  
Disaster Mental Health Assistance in Public Health Emergencies: Evidence-Informed Practices for Public Health Workers (1037365)  
EM 230: Mental Health Aspects of Emergencies and Disasters for Non-Mental Health Professionals (1005691) |
| | Describe how MRC serves the community. | Disaster Triage for Epidemics (1012019)  
Nurses on the Front Line: Preparing for and Responding to Emergencies and Disasters (1013008) |
| | Demonstrate cultural humility during MRC activities. |  |
## MRC Volunteer Training Plan

### DMPH Competency

- 3.0 Demonstrate situational awareness of actual/potential health hazards before, during, and after a disaster or public health emergency
- 8.0 Demonstrate knowledge of public health principles and practices for the management of all ages and populations affected by disasters and public health emergencies.

### MRC Performance Qualifications

- Describe how MRC serves the community.
- Demonstrate cultural humility during MRC activities.
- Describe how MRC serves the community.
- Identify the role of public health in the community.

### Suggested Trainings/tools

- **Chemical Emergencies and the Role of Public Health** *(1032732)*
- **Disaster 101: An immersive emergency preparedness and crisis leadership workshop** *(1047089)*
- **e-Learning on Environmental Assessment of Foodborne Illness Outbreaks** *(1051682)*
- **HazMat Transportation Incidents: Using the Emergency Response Guidebook** *(1008942)*
- **Disability and Disaster** *(1052223)*
- **Disaster Service Worker (DSW)** *(1017965)*
- **Latinos During Emergencies: Cultural Considerations Impacting Disaster Preparedness** *(1041124)*
- **Risk Communication for High Risk and At-Risk Populations** *(1032688)*
- **Culture & Health Literacy: Beyond Access** *(1014435)*
- **Health, Medicine, & Reunification in School Disasters** *(1048173)*
