

80-Hour Supervised Training Requirements for Prospective Body Artists

This sheet is to be used in conjunction with the document *80-Hour Supervised Training Documentation*.

FOR PERMANENT MAKEUP AND MICROBLADING ARTISTS ONLY

THE FOLLOWING IS THE MINIMUM REQUIRED:

- 6 sessions using practice skin under the direct supervision of the trainer. The trainee is to treat the practice skins like a real client, using aseptic technique throughout the session. The trainee shall set up, break down, and sanitize their work station. During these sessions the supervisor shall ensure the trainee is practicing aseptic technique, and break the trainee of any “bad habits” before they start (e.g. no touching of face, clothing, hair; no reuse of gauze, q-tips; dispensing additional pigments/inks into new cups with clean and freshly gloved hands rather than refilling the cup currently in-use; grabbing equipment such as floor lamps by the wrapped portions).

Session 5 Date: _____ Supervisor’s signature: _____

- 6 sessions setting up and tearing down the workstation, paying careful attention to cross contamination potential. Consider using the “clean hand, dirt hand” technique and/or working from the cleanest items to dirtiest items. Washing hands appropriately and glove use are required during this portion. Make sure to change gloves and wash hands if gloves become contaminated, contamination includes touching your own face or hair.

- Session 6 Date: _____ Supervisor's signature: _____

- Performing a body art procedure on 3 clients, from start to finish including station set-up and tear down, for each type of body art the trainee has taken a training course for. For example, if the trainee took courses for microblading, ombre brows, and eye liner, then the trainee shall perform microblading on 3 clients, ombre brows on 3 clients, and eye liner on 3 clients. This is to be done under the direct supervision of the trainer.

- Each day of training the trainee shall practice proper hand washing.

- Each day of training the trainee shall sanitize their own workstation. The trainee shall follow the sanitizer manufacturer's instructions for use and shall ensure that the manufacturer's contact time is being met. The supervisor shall instruct the trainee on the importance of achieving the required contact time.

The Health Department will need to contact your supervisor(s)
