

Fit Test Kit Checkout

Please fill out this form to request a qualitative fit-testing kit. You will be required to pick-up and return the kit(s).

This Fit Testing Kit is property of the Southwest Utah Healthcare Coalition and is stored at the Southwest Utah Public Health Department under the supervision of the Healthcare Preparedness Program Coordinator. This kit may be checked out by any of our coalition partners to use in their facility for the purpose of fit-testing staff.

It is important to note that any facility requiring employees to wear N95 masks (or any other respirator) is required, by OSHA guidelines, to maintain a Respiratory Protection Program. It is not the responsibility of the SWUPHD or HCC to provide training or guidance on fit testing or a respiratory program.

There is no payment or deposit required for checkout of this equipment. It will be expected that the fit-testing kit will be well cared for and properly cleaned and stored when returned to the SWUPHD. Any broken or unusable equipment will be replaced by the HCC if voted and agreed upon. A lost kit will be the responsibility of the last agency to check it out.
